Finac Garment Features

Finac Garment is useful for garment retail shops, cloth stores, readymade garment shops, etc. It includes all features for online billing, inventory management and accounting up to finalization.

* Large number of satisfied users

* Product is being developed for more than 5 years and is still developed continuously

* A windows based product developed using self-developed front-end & back-end technology. Does not require any other database license to use, thus saving you from additional cost or fear of using pirated database or a database with limitations.

* Self-developed back-end offers superb speed & tamper-proof data security. no one can open, view, modify data outside the program – preventing frauds in your shop.

* Online (Internet based chat/Email/Remote Access) & Telephonic support through our dedicated call centre.

* Very simple to use. No computer course is required. Workers in your shop can start using it within a few minutes.

* Numerous short cut keys for quick operations. Helps to handle in rush hours.

* Includes almost everything that is required to effectively manage a garment shop business.

* Manage working of Multiple Firms

* Includes complete accounting up to finalization. Avoid all time, money & efforts for maintaining separate accounting. Just feed your regular transactions. Finac Garment will automatically maintain all accounting. Export data compatible with the "Tally" software for finalizations.
